# Your calling in a nutshell

Combine your Birth Chart and Vocation Report to Map out Your Calling and Life Purpose

## Are you curious about astrology?

### Did you know that a birth chart can help you find your passion and purpose?

- A birth chart is much more than just your sun sign and what you read in the newspapers. It reflects your true personality and supplies a wealth of information on your gifts, talents and skills, as well as your blocks and challenges.
- A Vocation Report is designed to help you identify your calling, a combination of the specific tasks and jobs that will help you build a successful career while you also do what feeds your soul.
- Your unique report is a vital key to help you unlock the treasure chest of your vocational talent.

### A Vocation Report gives practical advice on:

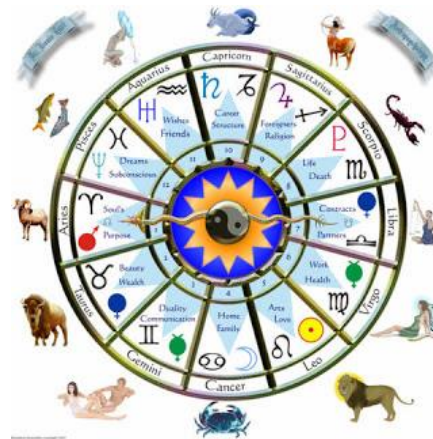

- The specific activities that will help to make you feel good about yourself, alive and well
- The emotional needs that are important to satisfy in your vocation - how to best care for your soul at work
- Your innate resources, personal assets and resources that need to be expressed
- The best way for you to earn your income
- The everyday routines and tasks that are compatible with your nature and which you need in your work to feel fulfilled
- The right work environment for your temperament
- How to deal with your stress
- The things you want to achieve and how you strive to contribute to the world
- The unique blocks or challenges that you may face on your vocational journey
- How to express your inner calling on a practical level that will enrich your life

### What is a 'Calling?'

- Remember that your calling or vocation isn't just about your career or job (which includes paid and unpaid work, parenting, home duties, volunteering, hobbies and education).
- It is also how your personality grows and evolves over time to give full expression of who you are and who you want to become.

### How can this information help you?

- Arming yourself with this knowledge will help you to further your self-understanding and awareness.
- It will provide you with clarity and focus and empower you to take charge of your vocational journey.
- It can serve as a checklist or compass every time you make decisions regarding your career or personal development.

"Build your own dreams, or someone else will hire you to build theirs."
